- ## Summary Of Test Results:

Total Test Cases- 22
Passed- 20
Failed- 2
Pass %- 91.67%

- ## Conclusion and Recommendations:

Pass Rate: 91.67%, Needs Improvement

- ## Issues Found

1. **Duplicate Email Allowed (1b)**
   Instagram allowed sign-up using an already registered email, resulting in account creation without any error.
2. **No Login Rate Limiting (2g)**
   Even after more than 15 failed login attempts with wrong credentials, there was no rate-limiting warning, CAPTCHA, or restriction.

- ## Recommendations

1. **Add Email Uniqueness Check**
   Prevent duplicate account creation by enforcing unique email validation during sign-up.
2. **Implement Login Rate Limiting**
   Introduce rate limits and show appropriate warnings (like CAPTCHA or lockout) after multiple failed login attempts.

- ## Bug Reports:

1.

Field	Description
Bug ID	BUG-1b
Title	Sign up allows already registered email
Module	Sign Up

Severity	High
Steps to Reproduce	1. Click on Sign Up 2. Enter existing Email 3. Fill all fields 4. Click on Sign Up
Expected Result	Should show error that email is already in use
Actual Result	Account was created successfully

2.

Field	**Description**
Bug ID	BUG-2g
Title	No rate limit or CAPTCHA on repeated failed login attempts
Module	Login
Severity	Medium
Steps to Reproduce	Try logging in with wrong credentials 20+ times
Expected Result	Error like “Too many attempts” or CAPTCHA should be shown
Actual Result	Only password error shown
